

Real Issues

Legislators love to pass legislation that limits or governs “We the People” but never bills that limit themselves, which is exactly what we need.

Here are some examples.

Single Issue Bills

The people deserve bills that cover one single issue. No more voting on undesirable legislation tied to good in order to pass something that is beneficial for Wisconsin.

No Legislation that does not Equally Apply to the Political Class

Wisconsin legislators pass many bills to regulate their constituents, but many of them do not apply to the legislators themselves. This needs to end. Any bills governing the people should apply equally to the political class.

Simple Language in Legislation

Along with single issue bills, legislation should be written in the simplest of terms, easy enough for a fifth grader to understand. No more “lawyer-speak” making bills difficult to understand.

No Corporate Lobbyists or Special Interests

Our representatives are elected by “We the People”. There is no reason they should enact or entertain any legislation which benefits anyone other than the people.

Hand Counted Paper Ballots

Elections determined by machines will never be trusted. Ballots must be hand counted, and the process must be live-streamed for anyone to see or audit at a later date.

One Day Voting (National Holiday)

Mail in ballots present opportunities for fraud. Election day is just that - election DAY! No more month long elections. This is a day worthy of declaring a celebrated national holiday to ensure that everyone has the opportunity to vote! As usual, an absentee ballot can be requested.

Elected Officials are Considered to be Under Oath

We must hold our elected officials to a higher standard. Any time they are in public, speaking to a constituent or media, they should be considered under oath, and guilty of perjury if they are intentionally untruthful. If they are tried and found guilty, they should be immediately replaced. There must be consequences for dishonesty. The same should apply to any election official or media figure.

No Unnecessary Travel - More Time in District

There is no reason our legislators need to be in Madison every week. We have technology that allows easy video conferencing. Representatives should remain in district as much as possible in order to spend time with, and represent the people.

No PAC Dollars in Elections

Candidates for office are elected by the people, to represent the people. Their campaigns should be funded by the people.

Limit the Power of the Speaker

The Speaker of the Assembly can single-handedly make decisions that severely limit any Representative’s ability to do the will of the people they represent. This power must be limited.

No Insider Trading

Elected officials must forgo any opportunity to profit off the decisions they make. Furthermore, they must submit to a yearly public audit.
